Matthew Mittelsted

(719) 354-3718 | mattmittelsted@gmail.com | https://sted6.github.io
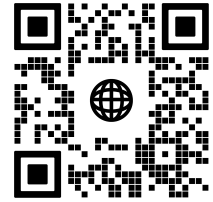

Executive Summary

- Intelligent, motivated, and focused software engineer possesses an excellent attention to detail and a desire to continually learn and grow, both as a person and as a programmer.

Experience

JR. DEVELOPER | ZELLIM (FORMERLY SMASH INNOVATIONS)| OCTOBER 2019 - OCTOBER 2020

Zellim is a small start up developing a state of the art remote workplace with marketing, and data aggregation features.

- Worked directly on the Front end of the flagship web application building a variety of MVC based components and services in Angular.
- Built several guided tours to onboard clients using third party packages.
- Helped test and debug the product.
- Rebuilt the company website two times based on different designs.

PROJECT MANAGER | BOA CONSTRUCTORS | AUGUST 2016 – JANUARY 2019

Founded in 2015, Boa Constructors is an up and coming construction company. With a small number of in house employees, Boa Constructors relies heavily on close working relationships with a variety of sub-contractors. Boa Constructors have completed a variety of both commercial as well as residential projects.

- Handled all aspects of project management including, but not limited to initial customer contact, project sales, estimating, scheduling, coordinating with subcontractors, ordering supplies, jobsite supervision, issuing change orders and financial analysis.
- Generated approximately $60,000 profit for the company from January 2017 through October of 2018 through efficient estimating and project management.
- Conducted financial analysis that resulted in more efficient bidding as well as error correction which has translated to increased companywide profits.

LEAD RESEARCH ANALYST | THOREACT, LLC | AUGUST 2015 – AUGUST 2016

Thoreact is a nuclear research and development company attempting to provide the American people with limitless clean energy via Thorium Nuclear Reactor technology.

- Provided company board members necessary research and information to make various business decisions. Attended meetings and recorded minutes. Managed board member schedules and organized a variety of meetings. Provided board members with thoughtful insight to assist in decision making. Applied for several grants. Managed a team of two other Research Analysts in the office.

- Major: Software Development
- In Progress (estimated date of completion: August 1st, 2021)

Certifications

COMPTIA PROJECT+

COMPTIA A+

CIW USER INTERFACE DESIGNER

Skills & Abilities

TECHNICAL SKILLS

- Angular2+ - React - NodeJS - TypeScript - JavaScript - PHP - Java - C++ - C# - HTML5 - CSS/SCSS - Bootstrap - SQL - MongoDB - Google Firebase - PHPMyAdmin - FaunaDB

MANAGEMENT

- Three years of management experience coupled with high level reasoning skills that could translate to any field or position.

SALES

- Experience in door to door sales as a young man followed by multiple stints as a car salesman laid the groundwork for a solid foundation of sales skills. Multiple years as a project manager, selling the company and our product to both residential and commercial customers, has served to build upon that foundation.

COMMUNICATION

- Confident, intelligent, and articulate. These factors contribute to effective communication skills, both one-on-one as well as in a presentation setting.

TEAMWORK

- Having worked as a part of a team in both professional settings as well as personal, teamwork is second nature.

LEADERSHIP

- In addition to management skills, basic leadership skills were developed during my time participating in high school sports where I played football and was named team captain of the basketball team. These skills have only grown and evolved with time and experience. I understand how to effectively motivate people, as well as where and how to apply personnel to maximize individual utility and team efficiency.
